

## Hazardous Chemical Risk Assessment Form

Page 1 of 2

_													
Hazardous Cher	Hazardous Chemical: White Knights Squirts Bright Green Aerosol												
How Used:		Applied from an aerosol spray											
Location (Used)	:	Throug	ghout :	Site				l	Jsed By:	22/09/2027			
Frequency / dur		Month	ly - <15	mins ir	total				, Quantities used:				
the equation of the equation o						c- type skin or respiratory reaction)							
					rcinogenic (cano								
Nature of Hazar	rd:		larmful						lutagenic (mutations/ genetic change)				
			ritant	222rd/c	lanasi	f. / )	L		eratogenic (birth defects)				
Other hazard/s (specify): Extremely flammable aerosol. Pressulting heated.							n. Pressuris	eu cor	itaine	er: may burst ii			
Monitoring									cause injury to/o	or via:			
Health surveillar	nce is required?			Yes	$ \Box$	No			Eyes			Skir	
	orogram required?			Yes	$\vdash$	No		$\rightarrow$	Inhalation Injection			_	estion allowing
All Illomitoring p	orogram required:			162	Ш	INO			Injection			) SWa	anowing
What Control I	Measures Are in Pla	ce or Pr	opose	d						Pre	sent		Recommended
Isolation (see SE			<u> </u>										$\boxtimes$
Fume cupboard													
General ventilat	ion												$oxed{\boxtimes}$
Natural ventilati	ion												$oxed{\boxtimes}$
Other engineeri	ng controls												
	ods (e.g., pumping ins	tead of p	ouring	)									
	and/or concentration											$\overline{\hspace{1cm}}$	
	least SDS and label)		<u> </u>	<u> </u>							 ₹		
	g (hazards, safe use, P	PE, healt	h surve	illance	if appl	icable)							
	tive equipment (list):												
	glasses with side-shie	elds/Cher	nical go	oggles									
- Safety gloves (Butyl rubber/Latex/Neoprene/PVA/Viton/Nitrile rubber)							$\boxtimes$						
If risk of overexp	oosure exists;												
- Respir	rator (see SDS, section	8)											
First aid supplies/equipment (i.e., safety shower, eyewash unit)										$\boxtimes$			
First aid training	5												
Evacuation plan, emergency plan and equipment required.													
Other controls (specify)													
									1				
Outcomes					Action required to reduce risks:								
Risks not significant now and not likely to increase						check adequacy of controls and whether any exposure routes are at risk)							
Risks significant but effectively controlled at the moment					No Yes (specify):								
Risks significant and not adequately controlled at the moment													
Uncertain about risks; more detailed assessment required													
Carried Out E	By:

## Hazardous Chemical Risk Assessment Form

- 20)

The activity **MUST** 

Likelihood	Criteria		
Rare - 1	The event may occur only in exceptional circumstances		
Unlikely - 2	Could occur at some time / the event is not expected to occur		
Moderate -3	The event may occur		
Likely -4 Likely to occur at some time / the event will probably occur			
Almost Certain - 5	Has or likely to occur weekly.		

Consequence	Safety	Environment
Insignificant – 1	No medical treatment other than first aid required and no lost time injury.	No lasting detrimental effect on the environment. Insignificant damage less than \$1000
Minor – 2	Medically treated injury.	Short term, local detrimental effect on the environment or social impact. Plant, property, or equipment damage less than \$10,000 and no disruption to business
Moderate - 3	Lost time injury without being admitted to a hospital.	Serious environmental event (discharge of pollution) requires remedial action. Breach of environmental law. No long-term impact on environment. Plant, property, or equipment damage less than \$100,000 and minimal disruption to business
Major - 4	Lost time injury resulting in being admitted to hospital with the ability to return to work after treatments.	Any of the above, with the potential for long-term environmental or social impact. Plant, property, or equipment damage less than \$1,000,000, major disruption to business
Extreme - 5	Fatality, permanent disability or multiple serious injuries to staff, contractors or public.	Extensive and long-term impacts on the environment and community. Plant, property, or equipment damage more than \$1,000,000, major disruption to business i.e., sites shut down

Consequence

	CONSCIQUENCE							
		1	2	3	4	5		
		Insign.	Minor	Mod.	Major	Extreme		
Likelihood	1 Rare	1	2	3	4	5		
	2 Unlikely	2	4	6	8	10		
	3 Moderate	3	6	9	12	15		
	4 Likely	4	8	12	16	20		
	5 Almost certain	5	10	15	20	25		

## Risk Levels

Low (1-3)	Medium (4 – 8)	High (9 – 14)	Extreme (15 –
Works shall be monitored by supervisor. Any risk assessed as presenting a low risk level will be permitted to be controlled using a combination of controls as appropriate, more than one lower-level control must be applied if elimination and or engineering controls are not practicable	Works shall be monitored by senior management. Any risk assessed as presenting high or medium risk level will only be allowed to be controlled using a combination of at least one engineering control and one lower-level controls as appropriate	No works to commence unless otherwise approved by Senior Management. Any risk assessed as presenting high or medium risk level will only be allowed to be controlled using a combination of at least one engineering control and one lower-level controls as appropriate	No works to commotherwise authoris Any risk assessed prisk level will only lecontrolled using elengineering controls source of controls be signed off by dispanser before on

Hierarchy of Controls						
Eliminate	Can we eliminate or remove the hazard completely?					
Substitute	Can we substitute the hazard with something else less dangerous?					
Engineer / Isolation	Can we re-design or isolate the hazard completely?					
Administration	What controls can we put in place, e.g., training, job rotation, supervision?					
PPE	What personal protective equipment is required to undertake this activity?
