

Hazardous Chemical Risk Assessment Form

		\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \		16		C 1: 1	A / L * L		<u> </u>				
Hazardous Chem	nical:	White Knights Squirts Satin White Aerosol											
How Used:		Applied from an aerosol spray											
Location (Used):			oughou						Used By:		22	/09/	/2027
Frequency / dura	ation of use:							Quantities used:					
							ensitiser (allergic		or resp	oirato	ry reaction)		
						-	arcinogenic (cand						
Nature of Hazard	d:					-	Mutagenic (mutations/ genetic change)						
		Other hazard/s/specify), Extremely f					Teratogenic (birth defects) flammable aerosol. Pressurised container: may burst if						
			heated										,
Monitoring									cause injury to/	or via:			
Health surveillan	ce is required?			Yes		No			Eyes			Skir	
Air monitoring nr	rogram required?			Yes	$+$ \Box	No			Inhalation Injection	☐ Ingestion ☐ Swallowing			
7 til Monttoning pi	rogram required.			103		110		l	Injection			JW	anowing
What Control N	Лeasures Are in Pla	ce or	Propos	ed						Pres	ent		Recommended
Isolation (see SDS	S, section 10)												\boxtimes
Fume cupboard													
General ventilation	on												
Natural ventilation	on]		
Other engineerin	ng controls												
		tead o	of pourin	g)									
Safe work methods (e.g., pumping instead of pouring) Reduce quantity and/or concentration (see SDS, section 8)													
		1 (300	555, 500										
Information (at least SDS and label) Ongoing training (hazards, safe use, PPE, health surveillance if applicable)													
		, IIC	.aitii sai t	/Ciliaricc	парр	псаыст				<u> </u>			Ш
•	Personal protective equipment (list):												
	- Safety glasses with side-shields/Chemical goggles												
•	- Safety gloves (butyl rubber/nitrile rubber/chloroprene) - Safety boots												
If risk of overexpo													
	ator (see SDS, section	8)											
First aid supplies,	/equipment (i.e., safe	ety sh	ower, ey	ewash s	tation	n)							
First aid training													
Evacuation plan, emergency plan and equipment required. (see SDS, section 6)									$\overline{\mathbb{N}}$				
Other controls (s							,						
Outcome	. ,,								A ation no milin	مراب سماری	م باماده		
Outcomes		. 10							Action require				ether any exposure
T T BISKS NOT SIGNIFICANT NOW AND NOT LIKELY TO INCREASE						routes are at i	risk)						
Risks significant but effectively controlled at the moment No					□ No		Yes (s	pecify	y):				
Risks significant and not adequately controlled at the moment													
Uncertain a	about risks; more det	ailed	assessme	ent requ	ired

Hazardous Chemical Risk Assessment Form

Likelihood	Criteria
Rare - 1	The event may occur only in exceptional circumstances
Unlikely - 2 Could occur at some time / the event is not expected to occur	
Moderate -3	The event may occur
Likely -4	Likely to occur at some time / the event will probably occur
Almost Certain - 5	Has or likely to occur weekly.

Consequence	Safety	Environment
Insignificant – 1	No medical treatment other than first aid required and no lost time injury.	No lasting detrimental effect on the environment. Insignificant damage less than \$1000
Minor – 2	Medically treated injury.	Short term, local detrimental effect on the environment or social impact. Plant, property, or equipment damage less than \$10,000 and no disruption to business
Moderate - 3	Lost time injury without being admitted to a hospital.	Serious environmental event (discharge of pollution) requires remedial action. Breach of environmental law. No long-term impact on environment. Plant, property, or equipment damage less than \$100,000 and minimal disruption to business
Major - 4	Lost time injury resulting in being admitted to hospital with the ability to return to work after treatments.	Any of the above, with the potential for long-term environmental or social impact. Plant, property, or equipment damage less than \$1,000,000, major disruption to business
Extreme - 5	Fatality, permanent disability or multiple serious injuries to staff, contractors or public.	Extensive and long-term impacts on the environment and community. Plant, property, or equipment damage more than \$1,000,000, major disruption to business i.e., sites shut down

Consequence

		1	2	3	4	5		
		Insign.	Minor	Mod.	Major	Extreme		
	1 Rare	1	2	з	4	5		
Likelihood	2 Unlikely	2	4	6	8	10		
	3 Moderate	3	6	9	12	15		
	4 Likely	4	8	12	16	20		
	5 Almost certain	5	10	15	20	25		

Risk Levels

Low (1-3)	Medium (4 – 8)	High (9 – 14)	Extreme (15 – 20)			
Works shall be monitored by supervisor. Any risk assessed as presenting a low risk level will be permitted to be controlled using a combination of controls as appropriate, more than one lower-level control must be applied if elimination and or engineering controls are not practicable	Works shall be monitored by senior management. Any risk assessed as presenting high or medium risk level will only be allowed to be controlled using a combination of at least one engineering control and one lower-level controls as appropriate	No works to commence unless otherwise approved by Senior Management. Any risk assessed as presenting high or medium risk level will only be allowed to be controlled using a combination of at least one engineering control and one lower-level controls as appropriate	No works to commence unless otherwise authorised by the Director. Any risk assessed presenting extreme risk level will only be allowed to be controlled using elimination and or engineering controls as the primary source of controls. The activity MUST be signed off by director or project			

Hierarchy of Controls						
Eliminate	Can we eliminate or remove the hazard completely?					
Substitute	Can we substitute the hazard with something else less dangerous?					
Engineer / Isolation	Can we re-design or isolate the hazard completely?					
Administration	What controls can we put in place, e.g., training, job rotation, supervision?					
PPE	What personal protective equipment is required to undertake this activity?
