

Hazardous Chemical Risk Assessment Form

Hazardous Chemical:	White Knights Squirts Satin White Aerosol										
How Used:	Applied from an aerosol spray										
Location (Used):	Throughout Site Used By:					22	/09/2027				
Frequency / duration of use:	Monthly - <15 mins in total Quantities used				sed:						
		xic							n or resp	iratory reaction)
Noture of Horard		rrosiv					Carcinogenic (atic al-	200	
Nature of Hazard:	= +	irmful itant					Mutagenic (m		etic chai	nge)	
☐ Irritant ☐ Teratogenic (bir☐ Other hazard/s (specify):							m an aerects)				
Monitoring							ld cause injury	to/or via:			
Health surveillance is required?			Yes		No		Eyes			Skin	
Air monitoring program required?			Yes	П	No		Inhalation Injection			Ingestion Swallowing	
All monitoring program required!			162	<u> </u>	INU		mjection] Jwanowing

Hazardous Chemical Risk Assessment Form

Likelihood	Criteria	
Rare - 1	The event may occur only in exceptional circumstances	
Unlikely - 2	Could occur at some time / the event is not expected to occur	
Moderate -3	The event may occur	
Likely -4 Likely to occur at some time / the event will probably occur		
Almost Certain - 5	Has or likely to occur weekly.	

Consequence	Safety	Environment
Insignificant – 1	No medical treatment other than first aid required and no lost time injury.	No lasting detrimental effect on the environment. Insignificant damage less than \$1000
Minor – 2	Medically treated injury.	Short term, local detrimental effect on the environment or social impact. Plant, property, or equipment damage less than \$10,000 and no disruption to business
Moderate - 3	Lost time injury without being admitted to a hospital.	Serious environmental event (discharge of pollution) requires remedial action. Breach of environmental law. No long-term impact on environment. Plant, property, or equipment damage less than \$100,000 and minimal disruption to business
Major - 4	Lost time injury resulting in being admitted to hospital with the ability to return to work after treatments.	Any of the above, with the potential for long-term environmental or social impact. Plant, property, or equipment damage less than \$1,000,000, major disruption to business
Extreme - 5	Fatality, permanent disability or multiple serious injuries to staff, contractors or public.	Extensive and long-term impacts on the environment and community. Plant, property, or equipment damage more than \$1,000,000, major disruption to business i.e., sites shut down

Consequence

	5 Almost certain	5	10	15	20	25	

Risk Levels

Works shall be monitored by supervisor.
Any risk assessed as presenting a low risk
level will be permitted to be controlled
using a combination of controls as
appropriate, more than one lower-level
control must be applied if elimination and
or anginossing controls are not prosticable

Low (1-3)

Medium (4 – 8)

Works shall be monitored by senior management. Any risk assessed as presenting high or medium risk level will only be allowed to be controlled using a combination of at least one engineering control and one lower-level controls as appropriate

High (9 - 14)

No works to commence unless otherwise approved by Senior Management. Any risk assessed as presenting high or medium risk level will only be allowed to be controlled using a combination of at least one engineering control and one lower-level controls as appropriate

Extreme (15 – 20)

No works to commence unless otherwise authorised by the Director. Any risk assessed presenting extreme risk level will only be allowed to be controlled using elimination and or engineering controls as the primary source of controls. The activity **MUST** be signed off by director or project manager before proceeding

Hierarchy of Controls					
Eliminate	Can we eliminate or remove the hazard completely?				
Substitute Can we substitute the hazard with something else less dangerous?					
Engineer / Isolation	Can we re-design or isolate the hazard completely?				
Administration	What controls can we put in place, e.g., training, job rotation, supervision?				
PPE	What personal protective equipment is required to undertake this activity?
